

BL Series Berm Blower

For optimal orchard care in the winter and spring, the Vrismo Berm Blower is indispensable. It adeptly handles the removal of leaves, sticks, and nuts, ensuring orchards remain orderly. The integration with the Low Profile Orchard Flail Mower and Sanitizer Mulcher elevates their functionality, allowing for debris removal and mulching in one efficient pass, thus facilitating a cleaner, healthier orchard environment.

BLOWER
24"

MOWER WIDTH
120" - 144"

HEIGHT
0 - 10"

AIR SPEED
120 MPH

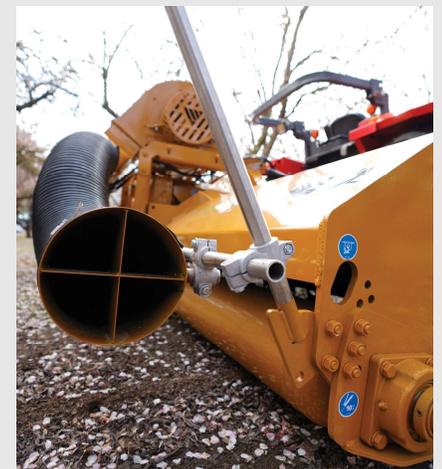

The hydraulic controls of the Berm Blower provide flexibility by enabling directional blowing options in both left and right directions as needed.

The Berm Blower is easily adaptable and can be fitted to any LP or Sanitizer mower, enhancing their versatility for various land maintenance applications.

KEY FEATURES

- **Safety:** Fully Guarded to protect workers from preventable injuries.
- **Toughness:** Durable and rugged design. Heavy gauge steel construction.
- **Precision:** Adjustable nozzle angle and height. Hydraulic actuation for airflow direction.
- **Low Profile:** Compact and portable design for easy maneuverability in narrow row spacing.
- **Compatibility:** Works with all Orchard LP and Sanitizer mowers.
