

# FC600

Tractor Power

45-75

PTO

540 RPM

Spray Height

24 feet

Weight

3,400 lbs

Standard

32" / 36"

Option

40"

The FC600 increases capacity and coverage in an accessible size. With a 600 gallon tank, it is suitable for mid-sized operations offering more output per pass. The 600 gallon solution provides longer run time on mid-sized tractors, premium performance on less horsepower.
